PROFILE

I am an innovative full-stack developer with over five years of experience crafting user-interfaces for B2B SaaS products and client-facing websites. I specialize in all things JavaScript to create elegant user experiences for complex software solutions with a proven track record leading cross-functional teams. I am seeking an intermediate/senior developer role to work on innovative projects in a collaborative, forward-thinking environment.

EXPERIENCE

Flipp Advertising Inc.   *Nov 2023 - Jul 2024*
Sr. Web Developer

· Led cross-functional collaboration in agile environment practices, managing multiple projects to meet client specs, deadlines, and ongoing maintenance.
· Designed and built scalable infrastructure from the ground up for an industry-leading NextJS platform, supporting over 50,000 peak users each year.
· Optimized website performance and SEO, significantly improving load times and search rankings.

Chata Technologies Inc.   *Sep 2019 - Nov 2023*
Team Lead/Frontend Software Engineer

· Led two 4-person teams: one developing an internal ML model configuration web app, another creating AutoQL suite with chat interface, dashboard, and notification system.
· Developed 2 API portals and Microsoft Teams extension, serving hundreds of users across multiple SaaS platforms.
· Spearheaded company-wide TypeScript adoption and group code-reviews through dev guild leadership.

KRD Consulting   *Apr 2019 - Nov 2019*
Jr. Web Developer

· Modernized a database management system, integrating custom reporting and form creation tools.
· Created network visualization tool for enhancing non-profit collaboration.
· Managed and optimized custom DrupalCMS client site.
